

TOWPLOW

PATENTED

Features

- Operates as a side wing with two in-cab controls; one control lifts and lowers the blade, while the other steers the rear axles and swivel tongue.
- Operates at any angle up to 30 degrees
- Clears a path of 24' or more with a 12 foot front plow
- Capable of plowing at normal speeds; operated to 55 mph
- Truck requirements: 90,000 lb. pintle hook, one double and one single acting hydraulic remote, 7-wire trailer plug with ABS and standard trailer air package
- Units purchased in the U.S. include: Missouri DOT, Minnesota DOT, Utah DOT, Maine DOT, Indiana DOT, Pennsylvania DOT, Tennessee DOT, North Dakota DOT, Kansas Turnpike, Iowa DOT, Nebraska DOT, and Wisconsin DOT.
- Operating Cost—fuel may increase by 10-18 %
- Maintenance Cost—standard shoes and cutting edges
