- VIKING Patrol wings compact design allows easy installation and better overall weight distribution.

VIKING-CIVES (USA) Light-Duty Snow Removal

Equipment is designed for durability and long-lasting performance.

VIKING EQUIPMENT is “built to withstand” to compensate for the toughest snowplowing conditions.

VIKING uses a proven design with the application of sound engineering and structural principles, resulting in the finest equipment available.

VIKING engineered hydraulic patrol wings require little cab to body clearance so that you can maximize your dump body payload.

VIKING hydraulic patrol wings are capable (depending on your truck chassis and equipment) of benching to a height of 36”.
